We also may notify your family about your location or general condition or disclose such information to an entity assisting in a disaster relief effort.

RESEARCH. Under certain circumstances, we may use and disclose Health Information for research. For example, a research project may involve comparing the health of patients who received one treatment to those who received another for the same condition. Before we use or disclose Health Information for research, the project will go through a special approval process. Even without special approval, we may permit researchers to look at records to help them identify patients who may be included in their research project or for other similar purposes, as long as they do not remove or take a copy of any Health Information.

We will only make this disclosure if you agree or when required or authorized by law.

HEALTH OVERSIGHT ACTIVITIES. We may disclose Health Information to a health oversight agency for activities authorized by law. NSU Student FORMULARY BENEFITS DATA CONSENT FORM

Formulary Benefits data are maintained for health insurance providers by organizations known as Pharmacy Benefits Managers (PBM). PBM's are third party administrators of prescription drug programs whose primary responsibilities are processing and paying prescription drug claims. They also develop and maintain formularies, which are lists of dispensable drugs covered by a particular drug benefit plan.

By signing below I give permission for Natchitoches Women's Care to access my pharmacy benefits data electronically through RxHub. This consent will enable Natchitoches Women's Care to:

- Check whether a prescribed medication is covered (in formulary) under a patient's plan.
- Display therapeutic alternatives with preference rank (if available) within a drug class for non-formulary medications.
- Determine if a patient's health plan allows electronic prescribing to Mail Order pharmacies, and if so, e-prescribe to these pharmacies.
- Download a historic list of all medications prescribed for a patient by any provider.

In summary, we ask your permission to obtain formulary information, and information about other prescriptions prescribed by other providers using RxHub.

NSU Student PATIENT PORTAL

THIS ENABLES YOU TO SEE YOUR MEDICAL RECORDS ONLINE IF YOU HAVE AN EMAIL ADDRESS

Authorization to Use or Disclose Protected Health Information via Electronic Media

Please Print

E-mail Address: _____ Date of Birth: ____/____/____ Sign Date: ____/____/____

Our patient portal lets established patients communicate more easily with us. The portal is not intended for 'Internet Doctor Visits' or new problems. Instead, it will make regular communication more flexible. NWC will provide notices via your personal e-mail that information can be found in your Patient Portal. No personal health information is transmitted via or into your personal e-mail. I understand that the following types of protected health information may be used, disclosed, and retained by health care providers of Natchitoches Women's Care as a result of the communications:

1. View documented health information
2. Get your Lab and Test Results quickly.
3. Email us securely back and forth.
4. Request referrals/refills for medications.
5. Print/Save electronic copies of medical records.
6. Update your demographics and insurance information.

Patients and/or personal representatives who want to communicate with their health care providers by clinic Portal should consider all of the following issues before signing this Authorization.

1. Portal communication is a convenience and not appropriate for emergencies or time-sensitive issues.
2. Portal messages received at Natchitoches Women's Care can be forwarded, printed and/or read, stored by NWC staff members.
3. We advise caution when communicating highly sensitive or personal information via Portal messages (ex: HIV status, mental illness, chemical dependency, and workers compensation issues.)
4. Clinically relevant messages and responses will be documented in the medical record.
5. NWC will not be liable for information lost or misdirected due to technical errors or failures.
6. NWC does not own or have any internet in Portal website. EMDs' Portal is a secure conduit in which communication with our database and patient's medical records access is managed.

We want your records to be complete and correct. Let us know if there's any problem with your records. Sometimes we may use medical jargon in your records and it can lead to confusion. If something doesn't make sense, let us know. Privacy matters. We will never sell/trade/abuse your e-mail address. The patient portal is protected just like phone calls are. Use our Privacy Form to tell us who it's OK to share with. We also think it's important for you to protect privacy on your end. We take security seriously, too. Computer networks do have real risks. We use appropriate technologies to protect your health information. We track security laws like HIPPA and HITECH. We protect and maintain all of the data at our clinic.

Bedside manner is complicated via email. It's easy to misread information or emotion. We'll try to keep things brief and clear on the Portal. We really appreciate your help on that, too. If a message takes a long time to write, it's probably better done in person.

If we have troubles, abuse or 'Spam', we may need to change policies, suspend accounts, or even terminate the portal. You can access the portal day or night, but we don't have a 24 hour presence on our end. As a safeguard, the portal should not be used for pressing issues. If there's an emergency, you should go to Urgent Care, the Emergency Room or call 911.

I understand that I have the right to refuse to sign or revoke this Authorization at any time. If I want to revoke this Authorization, I must do so in writing, and address it to Natchitoches Women's Care. I understand that if I revoke this authorization, it will not apply to any information already released as a result of this authorization. I will not disclose my patient access information to anyone.

I understand there are pros and cons to using the patient portal for communications with the clinic. The portal is a voluntary option and does not have a charge for its use.

I have read and understand the information in this authorization form and I accept or decline.
